

Mid American Pompon

DAY CAMPS

Day Camps

Mid American Pompon offers pompon teams that are not attending an overnight camp, a customized Day Camp. This is a comparable opportunity to allow teams to still have the camp experience without staying overnight. The Camps are led by a trained Mid American Pompon staff member and take place at Mid American Studio or at the team's school. Day Camps are uniquely tailored to each individual team.

Cost

Home Day Camp

- * \$165 per girl + \$50 coach fee
- * Minimum 2 days, 10 hours total

MAPP Studio Day Camp

- * \$135 per girl + \$50 coach fee
- * Minimum 2 days, 8 hours total

Option to purchase another routine for a flat rate of \$200 without adding an additional day of camp.

Camp Includes:

- Instruction of two routines of your choice with individual team help for both
- Instruction of a full big kickline with individual team help
- Team bonding activities with staff sister
- Constructive direction on proper form, jumps, stretching, and kickline techniques
- Routine and kickline evaluation at the end
- Enjoy instruction by highly-skilled Mid American Staff members

Mid American Pompon

TEAM SERVICES

Team Training

Teams can take advantage of Mid American Pompon's pom experts by scheduling a team training session. During these sessions, teams will be given constructive critiques and suggestions to help prepare for camp, the upcoming season, or competition.

Trained staff members will help teams clean-up current material, work on skill building and form, increase stamina, and fine-tune pom or dance basics. Sessions can take place at Mid American Studio or at the team's home gym.

Cost:

- Julie Hobbs-Julian
or Sarah Geroux: \$75 per hour
- MAPP Staff Member: \$50 per hour

Routine Consulting

Teams can now have a unique opportunity to have their competition routines critiqued by a qualified judge before competition!

Maximize points on your score sheet at upcoming competitions with an expert opinion on:

- * Creating choreography that connects with the music
- * Amplifying visual effects through enhanced formations, spacing, and proper pom form
- * Perfecting synchronization and transition
- * Featuring strengths and masking limitations
